Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	3
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Prior to the interviews, the facility director and case manager and I reviewed each resident screening and rescreening instruments and had a conversation about each of the residents. The administrators knew each of the residents and were able to discuss each with in depth details. Several of the residents have been at the facility in the past and see the facility as a safe haven.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p>84. Did you have access to all areas of the facility?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

Was the site review an active, inquiring process that included the following:

<p>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

Midtown Center is operated by the GEO Group, Inc. The resident population consists of Alaska Department of Corrections</p>

and Probation female residents who have all served time in secure institutions. During the daytime hours the majority of the residents are in the community seeking employment or other community services. The facility consists of a two-story building with the maximum capacity to house up to 32 female residents. There are a total of eight resident apartments, and each has the ability to hold up to four residents. Two resident rooms are located at the end of the first floor (Rooms 1 and 2) and six on the second floor (Rooms 3-8) facing south. Room 1 is the only handicapped accessible room. Each apartment consists of a kitchen, living room, dining area, two bedrooms and restroom. Midtown Center designed to provide privacy with PREA shower curtains and a door with the ability to be locked. The facility has cameras throughout the facility including the exterior of the building. Cameras are located in all hallways and common areas. There are two electronic locking gates located on each floor. These gates are monitored by staff. The security system stores surveillance video for up to 30 days. Camera monitors are located in the monitoring station, During the site review, the locations of cameras and mirrors, room layout, restrooms, and the placement of PREA posters and information was observed. Facility Notices in English and Spanish provided to the facility during the Pre-Onsite Audit Phase were found displayed in various locations throughout the facility. PREA reporting information and other PREA posted information is in both English and Spanish and posted in all housing units and in numerous locations throughout the facility. Reminders of opposite gender announcements are stenciled near the entries of housing have curtains for privacy. The residents stated that staff announce their presence when entering their living unit and don't come in the area where they shower and use the toilet when that area is being utilized by residents. The intake staff was able to walk through all steps that residents would go through during intake. The staff provided me with a resident PREA Education handbook, a resident PREA handbook and a PREA brochure.

The facility director and supervisory staff were in the housing areas most of the time I was at the facility. All staff and residents knew each other's name. Each camera was reviewed to determine if it provided enhancements to safety and at the time allow residents to shower change clothing and use the toilet without being seen on the monitor. While touring the facility, residents were involved in group counseling. Midtown Center is a female facility.

The reporting option numbers were called to determine if the calls were accessible to reentrants. The number for the RAINN National Hotline Network and provided two options to the resident. One was to make an allegation and one was to contact a local Crisis Center. The Anchorage Police Department was answered by a dispatcher and indicated he would take accept a call; however, it would be routed to closest Anchorage police officer. Ak. DOC call was answered by staff from the Ak.DOC PREA Coordinators office. STAR Rape Crisis Center was answered by a victim advocate. The advocate asked if I needed support, to make a report or a victim advocate. In a brief conversation, she indicated that the facility calls to set up appointment for mental health services, victim support services and would make arrangement to accompany a resident to a forensic examination if the resident would like for them to be present. A more in-depth call was made to STAR during the audit. The auditor was able to visit with residents during the tour and when they were returning to the facility. All knew I was coming to conduct the audit and were happy to share their knowledge of PREA. All new how to report, however, most indicated they would tell the director. Several of the residents that have been at the facility before indicated that they don't stop calling the director

when they leave the program and she services as part of the transition back into the community.

Staff interviewed during the tour were able to articulate the first responders' duties and discuss the daily, weekly, monthly and yearly information they are provided about PREA. The staff members that have worked at the facility for 15 to over 20 years talked about how PREA had changed the way facilities manage sexual misconduct and how resident no longer use defamatory words to each other like they did in the past.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

- Yes
- No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

Resident Files Reviewed: Twelve resident records were reviewed. These records included the following information. • Identification Number • Date of Birth • Date of Arrival • Date of Screening • Date of Follow-up Screening • Date of Referral for mental health services • Date of Initial PREA notification • Date of PREA orientation/education: Employee Background Checks: Eight background clearance files including three (3) relatively new staff, three (3) employees that had over five years tenure at the facility and two (2) promotions. All files contained background checks including Ak.DOC NICIC and Accurate employment history. Twelve employee training records were reviewed. Included in the employee training records were random monitors (direct care staff), supervisors, Investigator, PREA Compliance manager. Ten training questionnaires were review. All training has been completed in the last 12 months. All training did not include the training quiz that is considered part of the training program for residents. There one (1) investigative file reviewed. This includes sexual abuse administrative file. There was no criminal investigation for review during the last twelve months. The criminal investigations are being conducted by Anchorage Police Department. The logbooks and computerized unannounced rounds were reviewed in each housing unit and the control room. The auditor requested a specific date for unannounced PREA round and was provided with a PREA unannounced rounds document for that date.

115.215 (a): Based on review of GEO policy 5.1.2-A, and facility policy 2019-4, the agency and facility have policies in place regarding resident searches. Cross-gender strip searches and cross-gender visual body cavity searches are prohibited except in exigent circumstances or when performed by a medical practitioner. In information provided on the Pre-Audit Questionnaire, in the past 12 months there were no cross-gender strip or visual body cavity searches conducted.

115.215 (b): Midtown Center houses female residents. GEO policy 5.1.2-A, and facility policy 2019-4 clearly defines that transgender cannot be examined to determine their genital status. All staff interviewed acknowledge they had received training on cross gender pat down searches and were aware of the policy that forbids staff from examining a transgender person to determine their genital status. Local policy mandates that transgender residents will be offered a preference on gender to conduct pat down searches. The facility director indicated that the facility would not restrict access to programs due to a resident's gender. The facility director indicated that the decision to house a transgender resident would be determined by the resident's preference and the overall security and safety of the resident population.

115.215 (c): GEO policy 5.1.2-A, and facility policy 2019-4 mandate that all gross gender searches be documented. Based on interviews with PCM and PAQ there have been no cross-gender searches at the facility.

115.215 (d): The agency and facility have policies and practices that allow residents to shower, use the toilet and change clothing without opposite gender staff viewing them, absent of exigent circumstances or instances when the viewing is incidental to routine cell checks. Opposite gender staff are required to announce their presence when entering opposite-gender housing units or restroom areas. All residents are required to change their clothes in the resident bathroom area to ensure their privacy. Signs posted near the restroom area informs residents that the restroom is an authorized changing area. In the event a staff observes an opposite-gender resident for any reason, the staff member is responsible for making an immediate report of the incident and submit the report to the facility director. In interview with residents, they all feel they have privacy to shower, use the toilet, and change clothing when opposite gender staff are in their housing area. They also reported that staff do not come into the restrooms area of the other gender and all staff advise resident they are entering the showering and toile areas. All showers and toilets had curtains that allowed privacy for residents to shower. There are signs located in the front of each housing unit reminding staff to announce their presence when entering a housing unit. A review of the showering areas confirmed there were privacy for residents to shower, use the toilet and dress in privacy. Interviews with residents indicated they had not been stripped or pat down searched by male staff. 115.215 (e): GEO policy 5.1.2-A, and facility policy 2019-4 clearly defines that transgender cannot be examined to determine their genital status. The center would determine the housing plan and genital status by interviews by medical professionals in consultation with Alaska Department of Corrections. All staff interviewed acknowledge they had received training on cross gender pat down searchers and were aware of the policy that forbids staff from examining a transgender person to determine their genital status. Local policy mandates that transgender residents will be offered a preference on gender to conduct pat down searches. The facility director (PCM) and facility director indicated that the facility would not restrict access to programs and placement in the program due to a resident's gender.

115.215 (f): All employees of Midtown Center receive training on how to conduct cross-gender pat searches and searches of transgender and intersex residents in a professional and respectful manner. The Guidance in Cross-Gender and Transgender Pat Searches lesson plan was provided for review. Staff sign a PREA Basic Acknowledgement form acknowledging receiving and understanding the training provided. Review of random staff training records and in interview with security staff, revealed staff are receiving this training at pre-service and annually through on-line training. There were no transgender or intersex residents assigned to the facility during the on-site audit.

During interviews with female staff all indicated they had not been pat searched by male staff. The male staff would utilize a wand to detect metals objects. Male staff indicated they utilize a wand and if it goes off, they request a female staff to conduct the pat search.

115.217 (a): All employees, contractors and volunteers have had criminal background checks completed prior to being employed by Midtown Center. The facility does not hire or promote anyone who may have contact with residents, and does not enlist the services of any contractor or volunteer that may have contact with residents, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other center; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force or coercion, or if the victim did not consent or was unable to consent or refuse, or if the person has been civilly or administratively adjudicated to have engaged in the activity. Incidents of sexual harassment are considered by the facility in determining whether to hire or promote anyone or to enlist the services of any contractor or volunteer who may have contact with residents. The facility utilizes Accurate, a private vendor to conduct background check on all applicants. Additionally, the Client also conducts criminal backgrounds checks and documents that an applicant has been cleared to hire. The Client also conducts the 5-year criminal background checks for the facility.

115.217 (b): GEO and the facility considers any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. There is a questionnaire that all persons applying for a position or applying for a promotion must complete that ask if they have any incidents of sexual abuse or sexual harassment.

115.217 (c) The agency requires all applicants and employees who may have contact with residents have a criminal background check. Criminal background checks for all potential employees are completed through a contract with Accurate. For those considered for promotions or who transfer from another facility, an internal background check through GEO is requested on the Prison Rape Elimination Act Questionnaire Internal Promotion/Transfer form (HR-104), and an "Accurate" background check is conducted. If an applicant answers on their application, they are a prior institutional employee, information from prior institutional employers shall be requested through Accurate. From information provided on the Preaudit Questionnaire, in the past 12 months, 2 background checks were completed by Accurate and Ak. DOC.

115.217 (d): The facility performs criminal background checks through Accurate before enlisting the services of any contractor or volunteer. In information provided on the Pre-Audit Questionnaire, in the past 12 months there were no criminal background checks conducted for volunteers or contractors.

115.217 (e): Criminal background checks are conducted through Accurate every five years for employees and volunteers. The facility provided three five-year background checks at the auditor's request.

115.217 (f): The agency asks all applicants and employees who have contact with residents directly about previous sexual misconduct. Applicants are asked these questions on the GEO application. For consideration for promotions or transfers, employees complete a PREA Disclosure and Authorization Form Promotions – PREA Related Positions form (PREA-102). Annually at the time of performance evaluations, employees sign a PREA Disclosure and Authorization – Annual Performance Evaluations form (PREA-101).

115.217 (g): GEO and the facility policy mandates that material omissions regarding sexual misconduct and the provision of materially giving false information are grounds for termination as required by this standard. Employees have a continuing affirmative duty to disclose any sexual misconduct. This was verified by interviews with the administrative staff.

115.217 (h): Unless prohibited by law, GEO's Reentry Services Corporate Human Resource Department will provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom the individual has applied for work.

Exceed compliance was determined by the extensive background checks that are conducted independent of each other by the AK. DOC and Accurate prior to offering employment. Also, all staff files reviewed had yearly appraisal that included the PREA checklist of required by this standard.

The facility does have the RAINNS program at the facility. When contacted the RAINNS program referred the auditor to the STAR program.

The auditor interviewed staff at STAR. The staff were aware of the programs for reentry in Anchorage. She indicated that she had reached out to the center and indicated they provide all the services requested in the MOU however, they are reluctant to sign an MOU. Her basic reason was "there are over 20 correctional type facilities in the Anchorage area that would like a MOU. It would require a full-time staff just to sign and keep up with who has MOU and who doesn't, therefore, we don't sign MOU but offer all of the services of a MOU required free of charge to the resident, staff or facility."

All resident interviewed indicated they saw a video when they first arrived at the facility and the PREA compliance manager or facility director went over the PREA handbook. During this training the PREA compliance manager provided information of the victim support agency. Residents again sign an acknowledgement that they received and understood the PREA training program.

115.233 (b): Residents who transfer to the facility from a different community confinement facility receive the same PREA education that all newly assigned residents receive. In the past 12 months, there were 69 residents who transferred to the facility from another community confinement facility,

He has continued to receive training by writing with his case manager.

115.233 (d): The facility maintains documentation of residents' participation in PREA education sessions. Residents sign an Acknowledgement of Receipt of PREA Education Manual and another acknowledgment form acknowledging training in the zero-tolerance policy, the right to report, and access to free medical and mental health care and viewing the PREA: What You Need to Know video.
